David Sanson
PHI 205

There are two readings for this week:

- Leslie (2017)
- Saul (2017)

Both refer back to an earlier paper by Leslie, Leslie (2008), which is also well worth reading, but which I am not assigning.

Two good overview articles of recent work on generics are Leslie and Lerner (2026) and Liebesman and Sterken (2021).
